

**Going-to-the-Sun Road**  
 The Going-to-the-Sun Road is one of the world's most spectacular high-ways. Bisecting the heart of Glacier, this 50-mile-long road follows the shores of the park's two largest lakes and hugs the cliffs below the Continental Divide as it traverses Logan Pass. Numerous scenic turnouts and way-

side exhibits allow travelers to stop and enjoy the park at their own pace. **Vehicles longer than 21 feet (including bumpers) or wider than 8 feet (including mirrors) are prohibited between Avalanche Creek and Sun Point.** Guided tours are available; check at a visitor center.
