

Duncan

8

Duncan is home to the Chisholm Trail Heritage Center, which is completing an expansion that will more than triple its size and add high-tech, state-of-the-art galleries and attractions. The expansion is in response to the public's extraordinary interest in the Chisholm Trail and the Great Cattle Drive era.

Featuring the southwest's largest western-themed bronze statue, and telling the fascinating story of the Old Chisholm Trail, the newly expanded Center features a large, hands-on youth gallery where children touch, feel and experience the trail. In addition, visitors can meet and learn from Jesse Chisholm, for whom the Trail is named, and Tex, a young Texas Cowboy, whose life-like figures talk in the new Campfire Theater about their experiences on the Trail.

The centerpiece of the new Center is the multi-sensory Chisholm Trail Experience Theater. Here, in a wide-screen, high-definition feature film created just for the Center, visitors see, hear, feel and smell the adventures cowboys experienced along the Old Trail. Additional dioramas, displays and a new art gallery add to an unforgettable experience.

From the economic forces stimulating the cattle industry after the Civil War to the cattle barons and cowboys who made it happen, the center is the only location along the famous Trail where visitors can learn its complete story and actually stand on its visible remains. The Museum offers guided and self-guided tours to trail sites and other nearby historical sites.

The spirit that turned cowboys into legends, cattlemen into men of fortune and oilmen into industrial giants lives

Places to See:
