

Englewood Civic Center

CityCenter Englewood was redeveloped in the late 1990s in an effort to gentrify the area south of Denver. As a new urbanism environment, Museum Outdoor Arts (MOA) placed artworks from our collection to create a sculpture park that blends with the landscape and architecture of commercial and municipal buildings.

As a transit-oriented site, the RTD Light Rail and buses are congruent with the transportation theme in many of the artworks.

MOA's indoor galleries, studios and headquarter offices are on the second floor of the Englewood Civic Center.
